Welcome Message

Welcome to your trusted legal advisors, Future Legal Consultants and Debit Collection (FLC)!

We are here to serve your rights, defend with passion, and care like a family. Over the past years, we have been winning not only cases, but also customers trust.

You reached the safe harbor where you can just rest, and we can take all of your rights with passion.

Our priority and the most important win is “your trust”. We are here to seed, nurture, and grow long-term and trust-based relationship.

Waléed M. Mansour

Senior Legal Advisor

Our Story

- **The beginning** was a vision by the managing partner to establish a law practice for excellence
- **Over the years;** we started to realize this vision by individual attorneys of cumulative experience.
- **Then the expansion** was nationally in UAE and in the region by acquiring more talented professional lawyers across different practices.
- **Today,** we are serving large number of clients across various practices and with different engagement sizes.

Moving Forward, our new-launched brand is aiming to excellence and more due diligence in providing legal services

Vision

To protect our clients and protect their interests

Mission

To provide excellent and highly skilled attorneys all the time.

Core Values

We do believe in an integrated set of values to manage our business.

Our Legal Services

Conventional legal advice tends to be problem-focused and often endless inquiries without any real solutions. So, we established our office to deliver practical and distinctive solutions for our clients through our legal skills and experience. And our advisors and lawyers' experiences in analyzing problems and finding innovative solutions. Since our first and primary goal is the `client's interest and facilitating their work in the best and clearest way. So, we are distinguished by the fact that we deal with every case for a client as if it is the only case we have.

- Legal Consulting services
- Debt Collection
- Commercial Law
- Intellectual Property Rights
- Insurance Law
- Criminal Law
- Real Estate
- Family Law

Legal Consulting Services

At future legal consultants, we provide specialized legal advisory services on various topics to individuals, companies and banks.

Our office handles all matters of corporate contracts starting from the stage of negotiating terms and conditions and writing drafts as well.

We were also keen to form a specialized team of lawyers and legal advisors with high experience in writing these contracts and we provide our services professionally, including:

- Memorandum of Understanding.
- Legal agencies.
- Lease contracts.
- Insurance contracts.
- Local service agent contracts.
- Registration of companies.
- Contracts and other legal documents.

Debt Collection

Our office is proficient in dealing with creditors and collecting debts for our clients with extreme accuracy.

In addition, our office deals with the principle of "No fees without collection" and our lawyers are also committed to completing the ratifications and authentications of all documents necessary in the lawsuits without costing the client the burden of moving from one official place to another. These services include:

- We represent and defend our clients in civil cases, and we take the initiative to recover their debts on their behalf.
- We provide specialized advice on how to recover their debts.
- We represent our clients in legal cases to recover returned check funds.
- We have our own strategy in recovering all types of loans, tracing their assets, and recovering and collecting all loans in the easiest way and at the lowest possible costs.

Criminal Law

In the Future Office, we try hard to confront any act that deprives a person of his rights, so anyone who infringes on our customers or condemns them; we work to defend you in any criminal crime, including murder, fraud, rape, drug trafficking or abuse, bounced checks, breach of trust, theft and punishment of those who violate the law.

We have lawyers who are well-trained to deal with cases related to crimes, starting with police investigations, to the Public Prosecution and the Criminal Court, requesting bail, filing memoranda and pleadings related to all kinds of crimes.

Commercial Law

The institution has extensive experience in the field of trademarks, carrying out bankruptcy procedures, civil commercial mortgages, and franchising. These services include:

- Assistance in forming and establishing companies, including renting an office, finding a local sponsor, reserving a trade name, or drafting a memorandum of association
- Assisting in facilitating the work of institutional entities in accordance with the rules imposed by law.
- Following legal procedures.
- Providing legal services for both local and commercial businesses.
- Fraud and anti-money laundering.
- Writing contracts of sale and purchase, import and export and other transportation and brokerage.

Family Law

Future Law understands that personal status cases deal with sensitive issues in all aspects of law, especially in family law.

Therefore, our lawyers deal accurately and respectfully with issues of divorce, custody and alimony for children and file cases to prove the lineage of the child and matters of adoption and even matters related to inheritance.

We emphasize that our first direction is on reconciliation and friendly settlements with the aim of avoiding the family contract being broken.

Work And Workers

Future lawyers have extensive experience in labour cases from unfair dismissal of the worker - compensation for damages and disability resulting from work injuries - programs, benefits and incentives for workers - settlements and incentives.

We also provide our legal services to employers regionally and globally in all sectors as well as labour relations.

Our experience in this field includes matters that include the following:

- Immigration and Residence Law.
- Ministry of Labour Law.
- Managing the termination of employment and redundant workers.
- Rewriting and drafting service contracts and all types of work contracts and documents.

Intellectual property rights

Our office cares about the ideas of young people and understands the importance of protecting it. That is why we register patents, copyrights and trademarks in order to provide you with legal protection, whether local, Gulf or international. These services include:

- Patent registration.
- Protection of the trademark, company or product name.
- Copyright/protect ideas such as books, articles, artistic designs such as cartoon characters and music, and everything you write or record or even discuss discussions.
- Negotiate and create real estate financing options.
- Domain names.
- Commercial rights and sponsorship rights.
- Commercial, retail and administrative leasing of associated property rights, and lease contract disputes.

Real Estate

The Future office has wide experience in all matters related to real estate, including acquisition, financing, real estate rights, operation, real estate development, leasing and disposal of real estate and construction. We also provide advice for every type of transaction that affects real estate and environmental law.

Insurance Law

Future Office has experience in various disputes related to all types of insurance, such as :

- Building houses and insuring their contents.
- Insurance of engines and vehicles, "cars" of all kinds.
- Income protection insurance.
- Insurance of client accounts.
- Life, Travel, and Funeral insurance.

Medical Responsibility

We at "Future Office" believe that "life is the most precious thing a person has", so doctors should take the best possible care of their patients, but in some cases, doctors make mistakes!

Therefore, we are here for any error and we have extensive experience in dealing with these errors and return the rights to their owners. Our expertise in this field covers many consultations as follows:

- Health care coverage.
- Compensation.
- Access to electronic health librarians.
- Risks to bad and public health.
- Violation and fraud.
- Medicines and drugs.
- Global health.
- Comprehensive property rights for gene therapy.
